**Attachments:** BOF\_PL\_Suggestions.docx

Alan and Teresa –

I have added a couple of edits to the document – I move some of the stuff around and I gave a little bit of specifics (and elbows). I took out and condensed some of the more technical stuff (i.e., the middle part of the document). You could think about putting in some of back in, but I condensed most of the deleted material in the document.

I accepted all track changes up to Teresa's email below and I did track changes on my changes so you can see my suggestions (The document was getting to hard to read with all of the track changes).

Hi Alan,

Minor revisions which, as always, you can take or leave. Thanks for your great work and leadership on this – we'll all feel good knowing you are there on the 22nd.

Take care,

Teresa

PS – it just occurred to me that this is occurring on Earth Day – maybe the Board will be feeling particularly green that day J

Peter and Teresa,

Attached is the latest version of the testimony for the BOF. I would really appreciate your thoughts on this. It now includes stronger language related to the Type N streams. Dan O. supports the "Type N" language. Haven't heard from Tony or Christine yet.

Lots of stuff happening on the CZARA front that may delay/impact our testimony. CZARA is on the discussion agenda with Gina McCarthy, the Gov., Dennis and others. Will share more with you once I hear.

Alan
